Guidelines for authors

The journal publishes research articles (ca 45,000 characters), book reviews (ca 9,000 characters), news (ca 9,000 characters), expert essays (ca 27,000 characters) or possibly texts in other sections concerning current scientific knowledge in the field of social education. The texts must be original manuscripts not published previously and not granted by the author to be published elsewhere. The editor's office accepts manuscripts in Czech, Slovak, English and other languages – with English translation.

Manuscripts are submitted as attachments to an email addressed to editorsoced@fhs.utb.cz or upon logging into the journal website interface. To simplify authors' work, a template containing a published research article is available and information that author declares that this is the original study and text in this form has never been published or submitted for publication. Along with the template authors use title page. This document contains the authors' affiliation, ORCID ID and contact information for potential reviewers.

The review process of the article manuscripts is mutually blind and lasts from one to two months, based on the received reviews. The aim of the blind review process is to reduce the possible biases of the reviewers. The reviewers are members of the journal editorial board and part-time journal fellows. Reviews of books and news articles are reviewed by the editor of the appropriate section.

The papers are checked by anti-plagiarism software Crossref Similarity Check before publication of an article. Editorial board has the exclusive right to have a final decision on publishing the manuscript, or suspend/exclude manuscript in any stage of the review process based on generally deductible reasons. However, the authors of manuscripts have no legal claim to the publication of their manuscripts at any stage of the review process.

Monothematic issue topic: Inclusion as a Challenge of Today
Editor-in-chief: Lenka Gulová, Radim Šíp

The topic of inclusion provokes strong emotions throughout society. Specialists as well as laymen, the public, politicians, even tabloid media have expressed opinions on the issue. Inclusion is primarily linked to specific processes in schools and school institutions; however, the benefit of inclusion can be seen in a much broader perspective, one which concerns all, without exception. The objective of this monothematic issue is to place the topic of inclusion into a more open and broader context in the Czech environment as well as abroad. We invite authors to contribute by examining processes of inclusion within the environments of institutions and civil communities, in relation to various target groups or at any other level wherein inclusion might be an issue (i.e. starting from a practical focus to theoretical application or vice versa). Specialized texts may introduce practical experience in a range of areas, noteworthy analytical results of research surveys, or introduce topics of inclusion in other circumstances (e.g. barriers to inclusion, spiritual dimensions of inclusion, open society, inclusion in relation to Social Education and other disciplines and theories, etc.).

Sociální pedagogika | Social Education is a peer-reviewed scientific journal registered in the official List of Peer-Reviewed Non-impact Periodicals Published in the Czech Republic and indexed in the international databases.
