## Call for Papers

### Single-topic issue 9(2), November 2021

**Topic: Reflections of current social educational aspects within domestic or foreign education policy**

Editor-in-chief: Dušan Klapko & Renáta Tichá

Authors are warmly invited to submit papers for the November issue

Year 9 / Number 2 / **November 2021**

Dear authors

We would like to reach out to you in regard to the autumn issue of the Social Education journal (SocEd) with an offer for you to publish a paper in this issue, whose topic is: *Reflections of current social educational aspects within domestic or foreign education policy.*

We perceive social educational aspects from an axiological perspective, meaning that we want to anchor this call in the issue of social justice, equal access to education or socially-oriented transfer of socialisation models in education. The topic of the call also includes the option of creating a critical analysis of the current conceptualization of education policy. Individual papers can be conceived as theoretical or as research studies. For a clearer idea, we would like to suggest the following range of topics related to the call:

- implementing social inclusion at the level of education policy, or at the level of specific schools,
- co-operation between schools and non-school entities,
- (critical) debate on inclusive and selective education systems,
- socialisation role of current schools, examples from educational practice,
- assessing the implementation of various measures to achieve equal access to education,
- response of schools to current global humanitarian problems,
- education system visions in today's world.

#### Important deadlines
